

# NONPROFIT NAVIGATOR

## Salesforce® for Nonprofit

Enabling Fundraising. Effective Relationship Management. Simplified.

### Empower Nonprofits for Fundraising & Gaining Insights

It takes an out-of-the-box solution to break down silos between fundraising, donor relationship management, program management, campaign management, and more. Nonprofit Navigator is a comprehensive platform to manage all your nonprofits needs.

#### Nonprofit Navigator

Our Nonprofit Navigator is a superbly designed data model that serves the requirement of CRM. Designed for efficient fundraising, and donor relationship management for better retention rates, it is built on Salesforce and provides actionable insights to cover the unique requirements of Associations, Missions, Philanthropic Organizations, and other Nonprofits.

#### Solution Brief

Build incremental impact and track campaign productivity by unlocking a 360-degree view of your mission, constituents, campaigns, and donors' information. Store all critical information with smart categorizations. Manage complex to granular level details of engagements, initiatives, and projects, for the successful coordination, and execution. Make organization future-ready with a salesforce-based solution that understands the nuances of Nonprofit processes like Donor Management, Client Management, Campaign Management, Project, and Expense Management.

#### Users of Solutions

This solution enables anyone running a Nonprofit, of any scale, and looking for an automated system to streamline Donor Acquisition, Event Performance, Fundraising Campaign Monitoring, and overall Project Status with a granular view with the least manual effort.

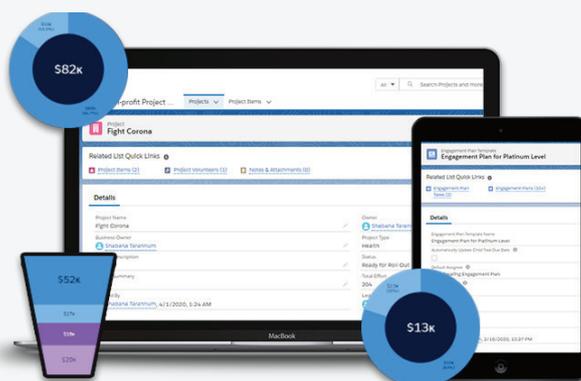

The solution can integrate with the payment gateway of your choice, making it 100% automated from the campaign to revenue recognition.
